Grade 6

Contents

Worksheets

Lesson 1 ................................................................. 1
  Skills Check
  New Skills Practice: Multiplication and Division of Whole Numbers
  Lesson Test

Lesson 2 ............................................................................. 9
  Skills Check
  New Skills Practice: Two-Digit Divisors, and Estimating with Large Divisors
  Lesson Test

Lesson 3 ........................................................................... 15
  Skills Check
  New Skills Practice: Adding and Subtracting Fractions with Common Denominators
  Lesson Test

Lesson 4 Skills Review .................................................... 23
  Lesson Test

Lesson 5 ........................................................................... 27
  Skills Check
  New Skills Practice: Adding and Subtracting Mixed Numbers, Reducing Fractions to Lowest Terms
  Lesson Test

Lesson 6 ........................................................................... 35
  Skills Check
  New Skills Practice: Lowest Common Denominator (LCD) in Mixed Number Addition and Subtraction
  Lesson Test
Lesson 7 ........................................................................... 45
Skills Check
New Skills Practice: Multiplying Using Simple Fractions and Mixed Numbers; Fractions in Word Problems
Lesson Test

Lesson 8 ........................................................................... 53
Skills Check
New Skills Practice: Multiplying Whole and Mixed Numbers, Canceling Fractions
Lesson Test

Lesson 9 Skills Review ........................................................................... 61
Lesson Test

Lesson 10 ........................................................................ 65
Skills Check
New Skills Practice: Dividing Fractions, Whole Numbers, and Mixed Numbers
Lesson Test

Lesson 11 ........................................................................ 73
Skills Check
New Skills Practice: Comparing Decimals, Adding and Subtracting Decimals, Adding and Subtracting Money
Lesson Test

Lesson 12 ........................................................................ 83
Skills Check
New Skills Practice: Metric Measurements of Distance, Weight, and Volume
Lesson Test

Lesson 13 Skills Review ........................................................................... 95
Lesson Test

Lesson 14 ........................................................................ 99
Skills Check
New Skills Practice: Multiplying Decimals
Lesson Test

# Contents

**Lesson 24** ................................................................. 181  
Skills Check  
New Skills Practice: *Calculating Perimeter of Squares,*  
*Rectangles,* and *Triangles; Calculating the Radius and*  
*Diameter of a Circle; Figuring Area*  
Lesson Test  

**Lesson 25** ................................................................. 191  
Skills Check  
New Skills Practice: *Finding the Area of Irregular*  
*Rectangular Shapes*  
Lesson Test  

**Lesson 26 Skills Review** .................................................. 199  
Lesson Test  

**Lesson 27** ................................................................. 203  
Skills Check  
New Skills Practice: *Finding Missing Numbers in Addition*  
*and Subtraction*  
Lesson Test  

**Lesson 28** ................................................................. 211  
Skills Check  
New Skills Practice: *Factors,* *Prime Numbers*  
Lesson Test  

**Lesson 29** ................................................................. 219  
Skills Check  
New Skills Practice: *Missing Numbers in Multiplication and*  
*Division Problems*  
Lesson Test  

**Lesson 30** ................................................................. 229  
Skills Check  
New Skills Practice: *Exponents,* *Parentheses in*  
*Mathematical Equations*  
Lesson Test  

**Lesson 31 Skills Review** .................................................. 237  
Lesson Test
Lesson 32 .................................................................................. 241
  Skills Check
  New Skills Practice: Order of Operations
  Lesson Test

Lesson 33 .................................................................................. 249
  Skills Check
  New Skills Practice: Rounding Decimals and Repeating Decimals
  Lesson Test

Lesson 34 .................................................................................. 257
  Skills Check
  New Skills Practice: Mean, Median, Mode, and Range
  Lesson Test

Lesson 35 Skills Review .......................................................... 267
  Lesson Test

Lesson 36 Final Exam ............................................................... 271
  Final Exam

Appendix

Extra Practice Worksheets ...................................................... 291

Lesson 1 ..................................................................................... 291
  Multiplication
  Multiplication with Large Numbers
  Division
  Division with Remainders

Lesson 2 ..................................................................................... 299
  Division with Two-Digit Divisors

Lesson 3 ..................................................................................... 301
  Adding and Subtracting Fractions with Common Denominators
  Converting Improper Fractions to Mixed Numbers
Lesson 5 ........................................................................... 305
Adding and Subtracting Mixed Numbers
Reducing Fractions to Lowest Terms
Subtracting and Regrouping with Mixed Numbers

Lesson 6 ........................................................................... 311
Adding and Subtracting Fractions with Different Denominators
Adding and Subtracting Mixed Numbers with Different Denominators

Lesson 7 ........................................................................... 315
Multiplying Fractions
Multiplication Using Mixed Numbers

Lesson 8 ........................................................................... 319
Multiplying Whole Numbers and Mixed Numbers Using Canceling

Lesson 10 ......................................................................... 321
Dividing Fractions
Dividing Fractions and Whole Numbers
Dividing Mixed Numbers

Lesson 11 ......................................................................... 327
Converting and Writing Decimal Fractions
Comparing Decimals
Adding Decimals
Subtracting Decimals
Writing Money Amounts
Adding and Subtracting Money

Lesson 12 ......................................................................... 341
Metric Conversions
Reading a Ruler

Lesson 14 ......................................................................... 347
Multiplying Using Decimals

Lesson 15 ......................................................................... 349
Dividing Decimals
Dividing Decimals with Remainders and Dividends Less Than 1
Lesson 16 ................................................................. 353
  Using Decimal Divisors

Lesson 19 .................................................................. 355
  Calculating Percentages
  Converting Fractions to Decimals
  Converting Decimals to Percentages

Lesson 20 .................................................................. 361
  Calculating Sales Tax and Making Change

Lesson 21 .................................................................. 363
  Calculating Probability

Lesson 27 .................................................................. 365
  Finding Missing Numbers in Addition and Subtraction

Lesson 29 .................................................................. 367
  Missing Numbers in Multiplication Problems
  Missing Divisors Division Problems
  Missing Dividends Division Problems

Lesson 30 .................................................................. 373
  Solving Equations Involving Parentheses

Lesson 32 .................................................................. 375
  Order of Operations with Addition, Subtraction,
    Multiplication, Division, and Parentheses

B-tests for enrolled students .................................... 377

Answer Key ................................................................ 457
Reduce all fractions in answers to lowest terms.

1. \( \frac{1}{3} + \frac{3}{4} \)  
2. \( \frac{3}{8} + 12 \frac{1}{8} \)  
3. \( 10 - \frac{4}{6} \)

4. \( 9 \div 1218 \)  
5. \( \frac{2}{3} + \frac{5}{9} \)  
6. \( \frac{5}{8} + \frac{1}{12} \)

7. \( 21 \frac{11}{12} - 6 \frac{7}{12} \)  
8. \( \frac{509}{468} \times 468 \)  
9. \( \frac{2}{4} - \frac{1}{6} \)
New Skills Practice: Multiplying Using Simple Fractions and Mixed Numbers; Fractions in Word Problems

Multiply and reduce to lowest terms.

1. \( \frac{3}{4} \times \frac{1}{2} \)
2. \( \frac{1}{6} \times \frac{1}{3} \)
3. \( \frac{2}{3} \times \frac{4}{5} \)

4. \( \frac{5}{6} \times \frac{1}{4} \)
5. \( \frac{3}{5} \times \frac{3}{4} \)
6. \( \frac{7}{10} \times \frac{1}{2} \)

7. \( 5 \times \frac{1}{2} \)
8. \( \frac{2}{3} \) of 8
9. \( 10 \times \frac{3}{4} \)
Lesson 7 New Skills Practice (continued)

10. \[ \frac{1}{2} \times \frac{1}{4} \]  
11. \[ \frac{3}{10} \times \frac{1}{2} \]  
12. \[ \frac{2}{5} \times \frac{2}{6} \]

13. \[ \frac{3}{5} \times \frac{1}{3} \]  
14. \[ \frac{5}{8} \times \frac{1}{3} \]  
15. \[ \frac{1}{6} \times \frac{2}{3} \]

16. \[ \frac{2}{3} \times \frac{3}{5} \]  
17. \[ \frac{2}{5} \times \frac{1}{3} \]  
18. \[ \frac{2}{9} \times \frac{4}{1} \]
Reduce all fractions to lowest terms.

1. \[ \frac{12}{3} + \frac{3}{6} \]

2. \[ 21 \div 4564 \]

3. \[ \frac{1}{3} \text{ of } 28 \]

4. \[ 9\frac{2}{9} - 3\frac{1}{3} \]

5. \[ \frac{3}{4} \times \frac{2}{3} \]

6. \[ 16 - \frac{2}{4} \]

7. \[ \frac{1}{2} \times 1\frac{5}{8} \]

8. \[ 18\frac{3}{4} + 9\frac{5}{6} \]

9. \[ 7006 \div 482 \]
Lesson 7 Test (continued)

10. $\frac{5}{6} \times 3 \frac{1}{4}$

11. $24 \times \frac{3}{4}$

12. $\frac{19}{8}$

13. $9 \frac{3}{5}$

14. $\frac{2}{3} \times \frac{5}{6}$

15. $1 \frac{3}{4} \times \frac{1}{3}$

16. $19 \frac{5}{6}$

$+ 5 \frac{1}{3}$
Lesson 7 Test (continued)

17. Joe’s family had a big party for his 21st birthday. There were 33 people at the party, and \(\frac{2}{3}\) of them were his friends from college. How many college friends were at Joe’s party?

18. Todd is driving at 60 miles per hour. If he continues driving at that rate, how many miles will he travel in \(\frac{3}{4}\) of an hour?

19. Jamie and Earl earned $188 mowing lawns together. If they split their earnings evenly, how much will each one receive?

20. Mrs. Johnson made an apple pie and divided it into 8 equal pieces. Mrs. Johnson ate 1 piece, Roger ate 2 pieces, and Shana ate 1 piece. What fraction of the pie did they all eat?
## Lesson 7 Learning Checklist

<table>
<thead>

</tr>
</tbody>
</table>
Reduce all fractions in answers to lowest terms.

1. \( \frac{3}{5} - \frac{1}{3} \)
2. \( 7\frac{3}{4} + 8\frac{3}{4} \)
3. \( 16\sqrt{5476} \)

4. \( 13 - 9\frac{4}{8} \)
5. \( \frac{3}{4} - \frac{1}{2} \)
6. \( 9\frac{3}{16} - 5\frac{5}{16} \)
Lesson 8 Skills Check (continued)

7. \( \frac{1}{8} + \frac{5}{12} \)

8. \( 6,050 \times 974 \)

9. \( 17 + 4 \frac{6}{9} \)
Use canceling, if possible, when multiplying. Reduce answer to lowest terms.

1. \( \frac{1}{6} \times 3 \)
2. \( 4 \times \frac{3}{4} \)
3. \( \frac{1}{5} \times 4 \)

4. \( \frac{2}{7} \times 2 \)
5. \( 6 \times \frac{2}{3} \)
6. \( \frac{1}{2} \times 2 \)

7. \( \frac{1}{5} \times 2 \frac{1}{2} \)
8. \( 3 \frac{1}{5} \times 1 \frac{1}{4} \)
9. \( \frac{5}{8} \times \frac{4}{10} \)
Lesson 8 New Skills Practice (continued)

10. \( \frac{2}{3} \times \frac{2}{8} \)  
11. \( 2 \times \frac{1}{2} \)  
12. \( \frac{2}{5} \times \frac{1}{3} \)
Use canceling, if possible, when multiplying. Reduce answer to lowest terms.

1. \(16 \times \frac{3}{4}\)

2. \(23\frac{3}{8} + 9\frac{5}{6}\)

3. \(6,359 \times 407\)

4. \(19\frac{5}{10} + 3\frac{2}{5}\)

5. \(\frac{4}{5} \times \frac{5}{8}\)

6. \(17 - 9\frac{8}{10}\)
Lesson 8 Test (continued)

7. \( \frac{7}{8} \times 1 \frac{3}{5} \)

8. \( \frac{3}{8} \) of 24

9. \( 5 \times 2 \frac{2}{5} \)

10. \( 12 \frac{1}{8} \)

11. \( 35 \) \( \sqrt{4312} \)

12. \( 6 \frac{2}{3} \)

\[ - 7 \frac{3}{4} \]

\[ - 2 \frac{1}{2} \]
13. There are 8 people in John’s family, and $\frac{3}{4}$ of them are females. How many females are in John’s family?

14. When Carly’s party was over, there were two boxes of pizza left. One box had $\frac{3}{4}$ of a pizza, and the other box had $\frac{2}{3}$ of a pizza. How much pizza was left altogether?

15. There were 150 people at the Little League game between the Cougars and the Eagles. $\frac{2}{3}$ of the people at the game were cheering for the Cougars. How many fans were cheering for the Cougars?

16. Mary is driving at 40 miles per hour. If she continues driving at that rate, how many miles will she travel in $1\frac{1}{2}$ hours?
